

Dear WIPE participant,

We would like to inform you that there is a possibility to organise a special issue of a journal with some of the papers presented at WIPE. The journal is *Investigaciones Regionales* (<http://www.investigacionesregionales.org/>). The journal's aims are to disseminate quality research carried out in the broad academic and professional field of regional, urban and territorial studies. The journal was created by the Spanish Association of Regional Science (AECR).

The journal's impact factor is currently being assessed by the ISI Web of Knowledge (Thomson Reuters), for inclusion in the Journal Citation Reports (JCR).

As the special issue depends on quantity and quality of papers submitted from WIPE, we would like to ask all interested contributors to send the final versions of their papers by February 28th. Additionally, we kindly ask you to let us know whether you are interested in submitting.

We hope you will agree with us that this may be a good outlet for your work and will submit a paper in due time.
