1. Background

The Rovira i Virgili University (URV) is an institution dedicated to providing the public service of higher education and research by means of teaching, research and university extension activities.

To meet this commitment in the field of research, the URV needs to train research staff by means of doctoral programmes and theses.

2. Strengthen the university's own doctoral programmes.
3. Increase the number of doctoral theses carried out in its departments.
4. Complement the training of doctoral students within the frame of R+D+I projects carried out by URV research groups.

5.4 Duration

PIPF contracts will have an initial duration of one year and may twice be extended for another year up to a maximum period of three years provided that the thesis supervisor has submitted a favourable report and in accordance with the academic committee of the doctoral programme.

This funding must be used expressly for the project.

In exceptional circumstances, the academic committee of the Doctoral Programme may renew the predoctoral contract for a fourth year provided that a report is submitted which provides reasonable guarantees that the thesis will be completed during this period. The academic committee will do this in agreement with the department to which the student is attached and provided that the department is willing to pay the cost of the renewal.

PIPF contracts may be rescinded at any time on agreement by the Departmental Council and by Resolution of the Rector once they have received the necessary report from the Tesis director and the department recommending such a course of action.

In all cases, the annual renewal of the contract will depend on the availability of the necessary funds.

Any amounts awarded for similar grants or contracts will be discounted from the total amount of this contract.

If, during the period of the contract, the candidate defends his/her thesis, he/she may not continue the contract and it will be terminated. Once trainee researchers have obtained the degree of doctor, the research training phase will come to an end. In all cases, these contracts will terminate on the same day that the thesis is defended.

The committees for evaluating applications for contracts funded by R+D+I projects and those assigned to certain Recognised Research Groups of the URV will be presided over by the principal researcher affiliated to contract as long as there is no [conflict of interest](#).

Applications for contracts that are governed by agreements between the URV and other institutions will be evaluated by the committees stipulated in the respective agreements.

Each committee will assign the contracts in accordance with either its Departmental Council or its Monitoring Committee (according to the circumstances), and its main criterion will be the relevance of each applicant's academic transcript to the area of knowledge pertaining to the contract. The committee members may decide to interview candidates in person. Likewise, the committees may issue a list of the successful candidates in order of preference. The decision will be published on the site of the Martí i Franquès Programme.

Approved by the Commission for Science Policy and Transfer 16 September 2022

To enable the committees to evaluate and prioritize the candidates, the following formula will be used to calculate the candidates' scores:

$$\text{Final score} = A+B$$

Where **A** is the score corresponding to the following scale:

6.49 – 7.49	3
7.5-8.49	3.5
8.5 – 8.9	4
9-9.49	4.5
9.5-10	5

Where:

C is the weighted average grade for the undergraduate degree (0-10) (*)

D is the weighted average grade for the master's degree (0-10) (*) and

B is the committee's score relating to the candidate's suitability for the knowledge area of each position available (0-5).

(*) Candidates who have studied all or party of their undergraduate studies outside the Spanish education system must submit their academic transcripts with the [declarations of equivalence calculated](#) in accordance with the resolutions of 21 March 2016, 21 July 2016 and 18 September 2017 of the General Directorate of University Policy of the Spanish Ministry of Education, Culture and Sport or the resolutions that are effect at the moment when the application is presented.

The committees will agree on a prioritised list of the positively valued candidates. The lists of selected candidates and the candidates on the waiting list will be published on the website of the Marti i Franquès Programme pursuant the [rules of personal data protection](#).

After examining the proposal assignation of contracts, the Rector will pass a resolution in which he will name a candidate for each contract in the order proposed by the Departmental Council or Monitoring Committee until all the contracts in the competition have been awarded. The competition may be declared void.

Any appeal against the awarding of the contracts must be addressed to the Rector of the URV and presented to the General registry within one month of the publication of the award.

5.8 Contracting:

From the day after the selection committee publishes its list of proposed candidates, these candidates have 10 working days to present the relevant documentation to the Human Resources Service within the established period so that they can sign the corresponding contract. Candidates who fail to present this document within the established period will be regarded as having renounced the offer of a contract.

If a candidate renounces his/her appointment or if the contract is unsigned, the rector will appoint the first candidate on the list in order of preference.

The type of contract will be a fixed term, full time Predoctoral Contract (Trainee Predoctoral Research Staff). Successful candidates will be registered with the general regime of the social security system.

This communication must state that the student has voluntarily renounced the contract and give the date from which he/she wishes to withdraw from it.

Students who renounce the grant within the first 3 months of the predoctoral research contract must pay the full cost of their registration fees.

A trainee predoctoral researcher may be substituted if this is requested by the researcher's department in cases where the department finances the research position with its own funds, by the evaluation committee for positions generated by contracts funded by R+D+I contracts, or by monitoring committees for positions created by agreements between the URV and other entities. A request to substitute a trainee predoctoral researcher may be made in the following cases:

- renunciation
- non-renewal

These contracts are incompatible:

- with any other grant or contract, with payments that imply a contractual link of a similar nature;
- with activities that, in the opinion of the Human Resources Committee delegated by the Governing Council of the URV, may prevent the individual from dedicating him/herself exclusively to the work that is the object of the contract;
- with occasional or infrequent activities carried out at the URV for which the individual receives a payment of more than 30% of the gross annual value of the grant.

5.11 Publicity:
