

In the Degree in Geography and Territorial Planning / Degree in Geography, Territorial Analysis and Sustainability: classes are held in Catalan. But if there are exchange students, classes can be taught in Spanish if you request it. In this case, it is necessary to contact the head of the degree: jordi.blay@urv.cat

There is the following subject **taught in English**:
[Topics in Geography](#) (3 ECTS credits, Annual)

The [Master's Degree in Planning, Governance and Territorial Leadership](#) will be taught entirely in Spanish. Virtual and face-to-face subjects are shared with the University of Granada. This is the list of face-to-face subjects that are carried out in the URV (all of them are of 3 ECTS credits except the external practices, with 6 ECTS credits):

- Qualitative Techniques for Territorial Planning
- Quantitative Techniques for Territorial Planning
- Urbanistic planning.
- Practical Case Analysis Territory
- Urbanization Criteria: Compact City Versus Diffuse City
- Interrelation and Collaboration among Municipalities: The Diversity of Administrative Forms
- Territorial Networks
- External practices

The rest of assignatures of the master will also be taught in Spanish and carried out in the University of Granada. For more information you can contact the coordinator of the Master Prof. Aaron Gutiérrez: aaron.gutierrez@urv.cat
