

REASONABLE ADJUSTMENTS

At the URV, we make reasonable adjustments so that we can provide an inclusive, accessible and adaptable education that is equal for all students.

HOW TO REQUEST ADJUSTMENTS?

Application for reasonable adjustments

The student applies for adjustments using the form on the Diversities website.

Evaluation and preparation of the report

The Diversities Support Service (DSS) receives the application, evaluates the student's case and prepares a report on the reasonable adjustments needed.

Sending of the report

The DSS sends the student and their degree coordinator a report containing its recommended adjustments.

Dissemination and implementation

The degree coordinator sends the report to the teachers of the subjects that the student is registered for.

Period of applicability of the report

The report will remain in force for the duration of the student's studies or until the student notifies the university of any change to their circumstances.
