2.7. Support for the Distribution of non-national films – The Cinema Automatic Scheme (See index 2.07 of the programming table)

Priorities of the year, objectives pursued and expected results

Encourage and support the wider transnational distribution of recent European films by providing funds to distributors, based upon their performance on the market, for further reinvestment in new non-national European films.

Encourage the development of links between the production and distribution sectors thus improving the competitive position of non-national European films and the competitiveness of European companies.

Expected results:

- An improvement in the trans-national distribution of recent non-national European films.
- Increase in the investment in the production, acquisition, promotion and distribution of non-domestic European films.

- Support for some 800 distribution actions in favour of recent non-national European Films.

Description of the activities to be funded under the call for proposals

The « automatic » support scheme works in two phases:

1. The generation of a potential fund, proportional to the number of paying admission tickets sold for non-national European films in States participating in the Programme, up to a fixed ceiling per film and adjusted for each country.

2. Reinvestment: the potential fund thus generated by each company must be reinvested in:

- The co-production of non-national European films;
- The acquisition of distribution rights, for example by means of minimum guarantees, of non-national European films; and/or in
- Editing costs (prints, dubbing and subtitling), promotion costs and publicity costs for non-national European films.

Reinvestment projects to be funded in 2014, presented as a result of call for proposals EACEA 07/2012 and 25/2013 which meet the detailed criteria set out in WP 2012 and 2013 respectively.

Eligibility and award criteria

A. Eligibility criteria:

Eligible applicants

European distributors established in one of the countries participating in the MEDIA Sub-programme and owned directly or by majority participation, by nationals from such countries.

European distributor

Any European company involved in commercial activity designed to bring to the attention of a wide audience a film for the purpose of exploitation in cinema theatres. This should be the principal activity of the company or division of the company. Such activity may include aspects of the technical publishing of an audiovisual work (dubbing and subtitling, striking of prints, circulation of prints, etc.) as well as marketing and promotional activities (production of trailers and publicity material, the purchase of advertising space, the organisation of promotional events etc.).

A cinema / theatrical distributor should fulfil the following criteria:

1. Be the holder of the theatrical distribution rights for the film in the territory concerned;
2. Carry out the theatrical distribution of the film in the territory (determines the release date, plans, controls and executes the distribution and promotion campaign);
3. Pay the associated distribution costs; and
4. Be registered and have theatrical distribution operations (i.e. operating staff) in the territory for which a grant is requested.⁴

Physical distributors shall not be eligible for support.

European company

Company owned, whether directly or by majority participation (i.e. majority of shares), by nationals of Member States of the European Union or nationals of the other European countries participating in the MEDIA Sub-programme and registered in one of these countries.

Eligible activities

1. The Generation of a potential fund, proportional to the number of paying admission tickets sold for non-national European films in countries participating in the MEDIA Sub-programme, up to a fixed ceiling per film and adjusted for each country, over a given period.

2. Reinvestment:

Reinvestment of the potential fund thus generated by each company in:

- The co-production of non-national European films;

⁴ This requirement is waived for the following territories as they are linked for distribution purposes: Belgium and Luxembourg; Switzerland and Liechtenstein; Greece and Cyprus; United Kingdom and Ireland.

- The acquisition of distribution rights, for example by means of minimum guarantees, of non-national European films; and/or in
- Editing costs (prints, dubbing and subtitling), promotion costs and publicity costs for non-national European films.

The film must be a recent work of fiction (including animated films) or documentary, with a minimum duration of 60 minutes, complying with the following conditions:

- Majority produced by a producer or producers established in the countries participating in the MEDIA Sub-programme. To be considered as the actual producers the production companies must be credited as such. Other elements such as creative control, ownership of exploitation rights and share of profits may also be taken into account to determine who the actual producer is; and
- Produced with the significant participation of professionals who are nationals/residents of countries participating in the MEDIA Sub-programme.

Recent films are those whose first copyright has been established during or after the year specified in the calls for proposals (normally the year of publication of the call - 4 years)

B. Award criteria:

Generation Stage

A potential fund will be attributed to eligible European distribution companies on the basis of the admissions achieved by the European non-national films distributed by the applicant in the reference year as set out in the call for proposal (i.e. the year preceding the publication of the call).

The potential fund will be calculated based upon a fixed amount per eligible entry. Shall the sum of generated funds exceed EUR24M under each call; each potential fund will be reduced proportionally. This reduction will not have the effect of lowering the amount of the potential fund below the minimum availability thresholds indicated below.

The support will take the form of a potential fund (the “Fund”) available to distributors for further investments in recent non-national European films.

The Fund will be calculated on the following basis:

- All paid admissions generated by recent non-national European films shall be declared by the applicant companies using the attached forms. Only paid admissions achieved between the 1st of January and the 31st of December in the reference year will be eligible. The paid admissions achieved by a film already supported by the MEDIA Sub-programme shall be eligible.

Applicants' attention is drawn to the fact that only clearly quantifiable, paid admissions will be eligible. Group or club screenings where an individual ticket price is not levied will not be

eligible. All admissions should be covered by the relevant national reporting and verification systems which enable the National Authority to certify them. EACEA reserves the right to reject applications where it is not satisfied that all of the conditions have been met.

- On the basis of the applicants declarations, and with the co-operation of the correspondents designated by the country participating in the MEDIA-Sub-programme, the total number of eligible paid admissions per company per territory per year shall be calculated according to the following formula:

- All paid admissions for a single non-national European film shall be eligible up to a limit fixed per film and per territory;

- This limit can be reached in one or more years but in any case all paid admissions over the maximum threshold for an individual film shall not be eligible.

The amount of the potential fund will be calculated by multiplying the number of eligible admissions by a fixed amount per admission.

Reinvestment Stage

The Fund generated may only be used through reinvestment projects.

The Fund can be reinvested:

1. In the production of new non-national European films (i.e. films not yet completed at the date of application for reinvestment);
2. In the meeting of Minimum Distribution Guarantees for recent non-national European films;
3. In the meeting of distribution costs i.e. P&A (promotion and advertising) for recent non-national European films.

For reinvestment modules 1 and 2, applicants can be eligible for selective support for the distribution of the same film.

Reinvestment in distribution costs (3) cannot be cumulated with a selective support for the same film. Applications for distribution costs may only be made to one scheme at a time. A second application for the same film will be ineligible, unless it is made after the applicant has been officially informed that the first application under the other scheme has been unsuccessful.

Reinvestment of the Fund into completed projects (i.e. released films) is impossible. This applies to all modules.

The Calls for Proposals will indicate the timetable to submit applications for reinvestment projects.

Please note that these projects will only be processed by EACEA after the establishment of the

letter informing the beneficiary of the amount of the fund she/he has generated. The reinvestment projects will be treated on the basis and within the limits of the fund generated by the distributor as calculated and notified by EACEA. Reinvestment projects must be approved by EACEA.

Combining the funds generated by different reference years and under different calls into a single Reinvestment project is not permitted, which means that the last contribution request from a series of reinvestment projects will be limited to the balance of the current fund.

Amount of the Project Allocation: The amount of the Fund that may be drawn for a given reinvestment project may not exceed a certain percentage of the total cost of the proposed reinvestment project.

2.9. Support to the international Sales Agents of European Cinematographic films
(See index 2.09 of the programming table)

Priorities of the year, objectives pursued and expected results

The objective of the Support to the international Sales Agents of European Cinematographic films is to encourage and support the wider transnational distribution of recent European films by providing funds to sales agents, based upon their performance on the market, for further reinvestment in new non-national European films. The scheme also aims to encourage the development of links between the production and distribution sectors thus improving the competitive position of non-national European films and the competitiveness of European companies.

The expected results are improved links between the production and distribution (Sales Agents & Distributors) sectors and the support of some 50 Sales/distribution actions in favour of recent non-national European Films.

Description of the activities to be funded under the call for proposals

The “Sales Agents” support scheme works in two phases :

1. The generation of a potential fund, which will be calculated according to the performance of the company on the European market over a given period.
2. Reinvestment : the potential fund thus generated by each company must be reinvested in:
 - Minimum guarantees or advances paid for the international sales rights on new European non-national films; and
 - The promotion, marketing and advertising on the market of new non-national European

films presented as a result of call for proposals EACEA 08/2012 and 07/2013 which meet the detailed criteria set out in WP 2012 and 2013 respectively.

Eligibility and award criteria

A. Eligibility Criteria:

Eligible applicants

The Sales Agent must be appointed by the Producer of the film by way of a written contract or agreement. 2. Reinvestment: the potential fund thus generated by each company in

- Minimum guarantees or advances paid for the international sales rights on new European non-national films.

- The promotion, marketing and advertising on the market of new non-national European films presented.

International sales: Any commercial activity designed to promote and sell the exploitation rights to a cinematographic film on the marketplace, in particular to cinema distributors. This

activity includes, inter alia :

- The negotiation and execution of contracts licensing the rights to exploit or exhibit the film;
- The promotion and advertising of the film in markets or festivals (screenings, advertising, promotional events);
- The design and dissemination towards potential buyers of promotional material for the film (EPK, stills, slides, "making-of", ...);
- The design and dissemination towards the press (trade press or other) and the potential audience of the film of promotional material and information (web site, ...);

Cinema / Theatrical distribution: Any commercial activity designed to bring to the attention of a wide audience a film for the purpose of exploitation in cinema theatres. Such activity may include aspects of the technical publishing of an audio-visual work (dubbing and subtitling, striking of prints, circulation of prints, etc.) as well as marketing and promotional activities (production of trailers and publicity material, the purchase of advertising space, the organisation of promotional events etc.).

National / Non-national European film: European films will be considered as "national" in that Member State or territories participating in the MEDIA Sub-programme whose citizens/residents have participated in the highest proportion in the making of the film. They will be considered as "non-national" in all the other territories.

B. Award Criteria

Generation Stage

A potential Fund will be attributed to eligible European Sales Agents on the basis of their performance on the European markets (i.e. countries participating in the MEDIA Sub-programme).

The support will take the form of a potential Fund (the “Fund”) available to Sales Agents for further investments in recent non-national European films.

Within the limit of the budgetary resources available, the amount of potential Fund available to each Sales Agent will be calculated on the following basis:

Step 1: The applicant sales agent shall provide evidence of its activity as a sales agent for European cinematographic films. To this end, the sales agent shall prove that:

- It was, between 01/01/2009 and 31/12/2013, the appointed sales agent of **at least 8 eligible European films (of which at least 1 non-national film)**, for which the agreement with the producer provided the right to sell the film in at least 10 countries participating in the MEDIA Sub-programme; the mandate must be signed and take effect within the reference period,

- **and** that, **during the same period**, for **at least 3 of these films in at least 3 countries** participating in the MEDIA Sub-programme, outside the country of origin of the films there was a theatrical release as evidenced by distributor declarations to the Automatic scheme of the MEDIA Sub-programme.

Where the national theatrical release has not been reported to the Automatic scheme, the declaration of the applicant Sales Agent may be accepted in the event that it is accompanied by independent proof which can reasonably be verified by EACEA.

If this first step is successfully completed, the sales agent shall be entitled to a potential support of EUR 20,000.

Step 2: If (and only if) the applicant Sales Agent has completed successfully the conditions set out for the first step, an additional potential Fund may be available. This Fund will be calculated according to the following principle:

As a percentage of the total potential fund generated in the framework of the automatic support scheme for theatrical distribution by the non-national films:

20 % for films from countries with a high production capacity;

30 % for films coming from countries low production capacity;

The amounts indicated above are provisional and may be subject to modification depending upon the budgetary resources available.

The generation stage is a method to calculate a maximum potential Fund to be reinvested in new projects depending upon the budget available. The notification to the Sales Agent of the

potential Fund generated does not constitute a claim on the European Commission/EACEA.

Shall the sum of generated funds exceed EUR 3M, each potential Fund will be reduced proportionally.

Reinvestment Stage

Sales Agents can present reinvestment actions starting from the deadline of the Call.

These actions will be processed by EACEA following the assessment of the “generation” phase of the fund, and will be treated on the basis and within the limits of the potential Fund generated by the sales agent as calculated and notified by the Agency.

The Fund can be reinvested in :

1. The meeting of Minimum Sales Guarantees for new European non-national films.
2. The meeting of promotion and marketing costs for new European non-national films.

The potential Fund can be reinvested in one or several films. Reinvestments in Module 1 (MG) and in Module 2 (promotion costs) for the same film are allowed.

Beneficiaries wishing to reinvest (part of) their potential Fund should send to EACEA a request for reinvestment. Reinvestment actions must be approved by EACEA. Reinvestment of the potential Fund into completed actions is impossible.

Reinvestment actions of the potential fund generated by this Call for proposals need to respect the following deadlines:

Earliest start date of the action: The international sales contract/agreement with the producer can be signed at the earliest on the "Generation" deadline of the Call.

Deadline for presentation of the reinvestment action:

The reinvestment applications must be submitted to EACEA within 6 months of the signature of the international sales contract/agreement with the producer and no later than 1st March 2016.

The potential Fund which is not reinvested by the beneficiary by the 1st March 2016 will be lost.

15 04 02 Supporting the Cultural sector to operate in Europe and beyond and to promote transnational circulation and mobility

2.14. Support to European cooperation projects (See index 2.14 of the programming table)

Priorities of the year, objectives pursued and expected results

The main objectives of the support for transnational cultural cooperation projects are

- To support the capacity of the European cultural and creative sectors to operate transnationally and internationally and to promote the transnational circulation of cultural and creative works and transnational mobility of cultural and creative players, in particular artists.
- To contribute to audience development by helping European artists/cultural professionals and their works reach new and enlarged audiences and improve access to cultural and creative works in the Union and beyond with a particular focus on children, young people, people with disabilities and underrepresented groups, by engaging in new and innovative ways with audiences both to retain and enlarge them, and to improve the experience and deepen the relationship with current and future audiences.
- To contribute to innovation in the field of culture, for instance through artistic innovation, the testing of new business models and the promotion of innovative spill-overs on other sectors.

The priorities in the field of reinforcing the cultural and creative sector's capacity to operate transnationally shall be the following:

- Supporting actions providing cultural and creative players with skills, competences

and know-how that contribute to strengthening the cultural and creative sectors, including encouraging adaptation to digital technologies, testing innovative approaches to audience development and testing of new business and management models;

- Supporting actions enabling cultural and creative players to cooperate internationally and to internationalise their careers and activities in the Union and beyond, when possible on the basis of long-term strategies;

Audience development seeks to help European artists/cultural professionals and their works reach as many people as possible across Europe and extend access to cultural works to under-represented groups. It also seeks to help cultural organisations adapt to the need to engage in new and innovative ways with audiences both to retain them, to build new audiences, diversify audiences including reaching current "non-audiences", and to improve the experience for both existing and future audiences and deepen the relationship with them.

This scheme has a flexible, interdisciplinary approach. Projects can either focus on one or more priority, at either one or more points of the value chain in either one or more cultural and creative sectors. The measures shall support, in particular, not-for-profit projects.

Expected results:

- Support about 100 cooperation projects, which pursue the objectives referred to above.

Description of the activities to be funded under the call for proposals

This scheme offers two categories of support. Depending on the scale, needs, nature, objectives of the project (also referred to as action), the project leader and the partners (also referred to as 'the applicants'), will have to choose to apply for either category 1 or category 2 referred to hereafter:

Category 1 - Smaller scale cooperation projects

This category of projects involves a project leader and at least two other partners having their legal seat in at least three different countries taking part in the Culture Sub-programme. Either the project leader or one of the partners must have its legal seat in one Member State or in an EFTA country.

Category 2 - Larger scale cooperation projects

This category of projects involves a project leader and at least five other partners having their legal seat in at least six different countries taking part in the Culture Sub-programme. Either the project leader or one of the partners must have its legal seat in one Member State or in an EFTA country.

The action is opened to cultural operators which have had a legal personality for at least 2 years on the date of the deadline for submission of applications and which are able to demonstrate their existence as a legal person. Natural persons may not apply for a grant.

Eligible projects

Depending on the scale, needs, nature, objectives and priorities of the project, applicants can apply under two different categories:

2.16. Support to European networks (See index 2.16 of the programming table)

Priorities of the year, objectives pursued and expected results

This measure offers action grants to support European networks active in the field of the cultural and creative sectors. These are structured groups of organisations representing the cultural and creative sectors, whose objective is to strengthen the capacity of the cultural and creative sectors to operate trans-nationally and to adapt to change with a view to achieving the general objectives of fostering and promoting cultural and linguistic diversity as well as strengthening the competitiveness of these sectors, also through the promotion of innovation.

The support for European networks is intended to have a structuring effect on players in the cultural and creative sectors and therefore a limited number of networks with broad coverage will be supported across a balanced range of sub-sectors. Greater synergies between existing networks in order to reinforce their organisational and financial structure and avoid duplication of efforts would be welcomed, where feasible.

The priorities of the Programme, relating to the reinforcement of the sector's capacity to operate trans-nationally and around which applicants are specifically asked to base their application, are the following:

- Supporting actions providing cultural and creative players with skills, competences and know-how that contribute to strengthening the cultural and creative sectors, including encouraging adaptation to digital technologies, testing innovative approaches to audience development and testing of new business and management models;
- Supporting actions enabling cultural and creative players to cooperate internationally and to internationalise their careers and activities in the Union and beyond, when possible on the basis of long-term strategies;
- Providing support to strengthen European cultural and creative organisations and international networking in order to facilitate access to professional opportunities.

Expected results:

- Support of about 25 networks, which pursue the objectives referred to above.

Description of the activities to be funded under the call for proposals

This measure offers co-financing to European networks which carry out activities with respect to the priorities set in the text box on objectives and priorities. 4. Quality of the European network (30)

This criterion evaluates how broad is the coverage of the activities of the network and the way it will ensure that these activities can be supported and their outcome disseminated beyond the members of the network.

The above award criteria will be applied for selection of entities signing Framework Partnership Agreements (FPAs) as well as for award of specific annual grants under signed FPAs.

Expected results:

- Support of about 10 platforms, which pursue the objectives referred to above.

This measure offers action grants to cultural and creative organisations showcasing and promoting European creators and artists, especially emerging talent, through a genuine Europe-wide programming. 2.23. Benchmarking on cultural diversity in cultural institutions (See index 2.23 of the programming table)

Priorities of the year, objectives pursued and expected results

The work of the Open Method of coordination on intercultural dialogue in cultural institutions has underlined the need for cultural institutions to revise their practices under four aspects (programming, staffing, reaching out to new audiences, creating spaces of encounter), in order to better reflect cultural and social diversity and keep relevant to societal needs.

The deliberations of the group have highlighted that it would be useful to develop a series of benchmarks and possibly a label to be awarded to arts and cultural institutions willing to undergo the effort of opening to diversity.

The definition of benchmarks, the verification of compliance to the set benchmarks and the award of the label should be conducted through a peer-to-peer approach.

Description of the activities to be funded under the call for proposals

The aim of the calls for proposals is to select an organisation or a platform of organisations that will:

(a) Develop and test, on the basis of a wide consultation with stakeholders and taking account of the results of the OMC work, a set of benchmarks and indicators for cultural diversity in cultural institutions. If appropriate, compliance to benchmarks could be highlighted through a label

(b) Develop a solid communication campaign to propose the principles and to

encourage cultural institutions to adhere

(c) maintain a database of cultural institutions that are willing to undertake the effort of complying with benchmarks

(d) if appropriate, award a label according to transparent criteria

(e) evaluate the results and impact through appropriate activities (seminars, webinars, meetings with stakeholders) at local and European level

Priority will be given to one project which could be carried out by an organisation with a network covering at least 15 participating countries, of which 12 Member States. As for the selection process, there will be one specific call for proposals.

The grant would be used to develop and test the benchmarking system.
