

MARGARITA SALAS - REQUALIFICATION OF RESEARCHERS - MARÍA ZAMBRANO GRANTS

SHORT CV (CVA) – INSTRUCTIONS

**CVs submitted should comply with this format
In addition, CVs generated automatically from FECYT are allowed**

GENERAL CONSIDERATIONS

The model of the document is prepared so that it can be filled in the format established as recommended in the call: letter Calibri of a minimum size of 11 points; left side margin of 3 cm and right of 2.5 cm; upper and lower margins 1.5 cm; and simple minimum line spacing.

The maximum length of the document (sections A, B and C) cannot exceed 4 pages.

The system will not allow you to upload larger documents.

1. We recommend you to complete the CVA using a computer with Windows operating system and a word processor MS Word (MS Office).
2. Once the CVA is finished in Word, you must convert the file to PDF format (no more than 4Mb) and upload it to the application in the section Adding documents> Short Curriculum Vitae (CVA).

Part A. PERSONAL DATA. Researcher Identification Numbers

We recommend you to fill in the ORCID Code and at least one of the identifiers *Researcher ID/Web of Science o Author ID/SCOPUS*.

Researcher ID (RID) is a unique identifier that consists of alphanumeric characters that enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. It is hosted by Web of Science.

Access: *Web of Science > My tools > Researcher ID*

Author ID is a unique identifier that consists of alphanumeric characters that enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. It is assigned automatically by SCOPUS. You can find an author identifier by running a search for that author. It will appear underneath the author details.

Access: SCOPUS > Author Feedback Wizard > Researcher name

ORCID Code provides a persistent digital identifier that distinguishes the researcher from every other person and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between you and your professional activities ensuring that your work is recognized.

Access: www.orcid.org

A.3. Indicators of Quality in Scientific Production

Please add information on a) total number of citations, average number of citations/year during the postdoctoral period, b) total number of publications in the first quartile (Q1) and first decile (D1), c) h-index, d) thesis supervised, and e) any other indicators that you may consider relevant

To calculate these values, use default data collected in the Web of Science or Scopus. When this is not possible, other indicators may be used, specifying the reference database.

Part B. FREE SUMMARY OF CV (*maximum 3500 characters, including spaces*)

Describe briefly your scientific career, the main scientific-technical achievements and the mid-to-long term scientific-technical interests and objectives of your research agenda. Indicate any other aspects that you may consider important to understand your career path.

It should be noted that this summary will only be used for the evaluation process.

Part C. ACCOMPLISHMENTS (*order by typology*)

Given the limitations in number of characters, please mention the most relevant achievements sorted by the typology that best suits your scientific profile. Please be clear and avoid ambiguities.

Use reverse chronological order within each section, except for those that have an extraordinary importance for your CV. Include at most the 10 most relevant supports in each of the following sections.

C.1. Publications

Include the full review of the publication.

In case of an article, please include authors in order of signature, year of publication, title of the article, name of the journal, volume, start page to end page.

If it is a book or chapter of a book, include its publisher and ISBN also.

If there are many authors, please indicate the total number of signatories and the position of the researcher (total number/ position of researcher) as for example 95/18.

C.2. Participation in R+D+I Projects

Indicate the most important projects in which you have participated, including a) its reference, b) title, c) funding body and call for proposals, d) name of the principal investigator and his/her institution affiliation, e) date of start and end of the project, f) amount of subsidy, and g) your type of participation, e.g.: researcher, principal investigator, European project coordinator, etc.

C.3. Participation in R+D+I Contracts

Indicate the most important contracts in which you have participated, including a) title, b) company or entity, c) name of principal investigator and his/her institution affiliation, d) date of start and end of the contract, and e) amount of funding.

C.4. Patents

Indicate the most important patents and other intellectual property in which you have collaborated. Give a) the order of signing authors, b) reference, c) title, d) priority countries, e) date, f) holder entity and companies that are exploiting the patents.

C.5, C.6, C.7... Others

By sequential numbering (C.5, C.6, C.7 ...) please include any other achievements that you deem necessary, such as for example: direction of works, participation in assessment or advisory tasks, membership of international committees, management of scientific activity, editorial boards, scientific awards, etc. In the case of the thesis directed, the link to the thesis document must be put.

FINAL CONSIDERATIONS

Please remember that all the submitted achievements must be presented concisely, including dates or periods for each performance.

The short CV aims to facilitate, organize and streamline the evaluation process. The use of the individual researcher identifier facilitates access to the published scientific papers and information on the impact of each of them.
